Molybdenum

GUARANTEED ANALYSIS 0-0-0 + 5%Mo

Molybdenum (Mo)......5.00%

DERIVED FROM: SODIUM MOLYBDATE

PHYSICAL PROPERTIES: Liquid form, 8.65 pH, 8.83 pounds per gallon at 68° F.

CAUTION: This fertilizer is to be used only on crops which respond to molybdenum. Crops high in molybdenum are toxic to grazing animals (ruminants).

PRECAUTIONARY STATEMENTS

CAUTION: Keep out of reach of children. Harmful if swallowed.

STORAGE AND DISPOSAL: Keep product in original container. Store away from excessive heat. Do not transfer into food or drink containers. Triple rinse when empty for disposal. Always dispose of container in accordance with local, state, and/or federal regulations.

CONDITIONS OF SALE: The information contained herein is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from use of this material. Follow directions carefully. Timing, rate, and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or any accompanying written recommendations are beyond the control of Seller. Buyer assumes all risks of use, storage and handling of this material not in accordance with directions given herewith. Information received by the Washington State Department of Agriculture regarding the components in this product is available on the internet at http://agr.wa.gov.

COMPATIBILITY: May enhance the activity of other products in tank mix. Product penetration into leaf surfaces will be increased. May be mixed with most liquid fertilizers or impregnated on dry granules or prills. Use clean spray equipment. Perform a jar test before mixing large quantities if compatibility is in question.

DESCRIPTION

Molybdenum is a probiotic nutrient designed to improve nitrogen uptake through nodule stimulation and development. Stimulation of overall nitrogen utilization within some plant.

BENEFITS OF USE

- Chelated source of molybdenum
- Stimulates nodule development nitrogen production
- Promotes increased nitrogen utilization

APPLICATION RECOMMENDATIONS

Shake Well Before Using

Apply 1 ounce to 6 ounces per acre

Application rates and timing may vary according to individual crop needs, prior fertilizer applications, and soil type and conditions. Applications should be made according to soil and/or foliar analysis and in cooperation with a MAP representative or other agricultural specialist.
